DETAILED ACTION

1. The Examiner has carefully considered Applicant's amendments and accompanying response filed September 23, 2009. In view of Applicant's response, the previously set forth 112, 2nd rejection and prior art rejection in view of Kitano et al. (US) has been withdrawn. However, after an updated search, additional art has been found which renders the invention as currently claimed unpatentable for reasons herein.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nishimura et al. (US). Nishimura et al. disclose a reinforced woven fabric composite comprising carbon fibers (col 17, ln 44) in an epoxy resin matrix (col 28, ln 22). The composite is stitched integrally (col 11, ln 1-4). Nishimura et al. disclose the claimed invention except for the teaching that the stitching is applied in an oblique manner or in a gradual manner with respect to an impact orientation and the stitching is applied to a portion which is at a predetermined distance from an end portion of the impact-absorbing composite structure. It would have been obvious to one having ordinary skill in the art at the time the invention was made to have applied the stitch in Nishimura et al. in an oblique manner or in a gradual manner with respect to an impact orientation or to a portion which is at a predetermined distance from an end portion of the impact-absorbing composite structure, motivated by the desire to create a fibrous composite that has increased strength properties and high reliability.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
